QM-SOLCAN: Professional Gallery Matte Canvas

SOLCAN is a 35% Cotton / 65% Polyester blend that is a stretchable, crack-resistant canvas. Unlike most solvent canvas products, SOLCAN provides a consistent matte printing surface that allows for extremely wide color gamut, rich black densities, while still offering the traditional artist's texture look and feel. SOLCAN achieves amazing color accuracy and ink saturation even at full production print speed for high-volume printing environments. Printmakers can choose to apply water-based laminates for added durability and crack resistance, however lamination is not required.

Benefits:

- Gallery Frame Wrap
- Crack Free Stretching when Laminated
- Full Color Gamut Representation with Vivid Color Locking
- Smooth Matte Finish
- Water Resistant

Applications:

- Great for Indoor Gallery Wrap
- Backdrops & Signage
- Photo Reproduction

Registered Latex Developer

TECHNICAL DATA: QM-SOLCAN – PROFESSIONAL GALLERY MATTE CANVAS

SURFACE FINISH:	Matte	OPACITY:	99
BASE MATERIAL:	35% Cotton/65% Polyester	GLOSS MEASUREMENT:	3 +/- 10% by angle of 60°
FABRIC WEAVE:	Oxford 2 over 1	STORAGE:	Indoor 1 yr. between 50-80° and 50-60% RH
BASE WEIGHT:	420 GSM +/- 10%	ROLL LENGTH:	65 FT.
CALIPER:	21 Mil +/- 2	ROLL WIDTHS:	24" 36" 54" 60"
BRIGHTNESS:	87 (ISO Blue Whiteness)	CORE:	3"
WHITENESS:	92 (CIE Ganz)	INK RECOMMENDATIONS:	ECO-SOLVENT LATEX UV

This media is designed for digital printing applications using OEM printers with their accompanying OEM ink sets. Although designed for all printers using the aforementioned OEM matching ink sets; actual results may vary depending on printer model, age, print design, environmental conditions, and other factors. Exposure of a print to atmospheric pollutants, or to temperature, humidity, and / or lighting extremes can result in fading, color shifting, or other visual changes. The ideal conditions for printing and storage are a temperature of 70°F ±5°F and relative humidity of 50% RH ±3% RH. Our wide format media is guaranteed against manufacturing flaws and defects and is designed to resist printer jams when used properly.
