QM-ECLIPSTAC:

Matte Hybrid Silver Blockout Backside
with Removable Adhesive

Vibrant colors and sharp line printing with silver blockout backside make Eclipstac stand out from the crowd. The most economical alternative to Tyvek, Teslin, and other tear strength products, that also works with multiple print platforms. This tree free and PVC free media truly redefines film with many various applications that require extreme durability and/or die cutting. The removable adhesive makes it easy to switch out with no residue.
