

QM-DP8: Matte PET w/ Dry Peel

Our dry peel technology will keep your production moving smoothly and your graphics looking amazing! While more rigid than our 6 mil version this product peels off the liner very easily and goes through the printer smoothly. Stand out with durable and clean edge dry peel sheets that are strong enough to hold up in cooler displays.

Benefits:

- Clean Edge Die Cutting
- Water/Weather Resistant
- Tear Resistant
- Great for Short Run Laser Cutting

Applications:

- Wobblers
- Table Tents
- Shelf Strips
- Shelf Tags

This media is designed for digital printing applications using OEM printers with their accompanying OEM ink sets. Although designed for all printers using the aforementioned OEM matching ink sets; actual results may vary depending on printer model, age, print design, environmental conditions, and other factors. Exposure of a print to atmospheric pollutants, or to temperature, humidity, and / or lighting extremes can result in fading, color shifting, or other visual changes. The ideal conditions for printing and storage are a temperature of 70°F ±5°F and relative humidity of 50% RH ±3% RH. Our wide format media is guaranteed against manufacturing flaws and defects and is designed to resist printer jams when used properly. Storage: Up to one year if stored in proper conditions (cool, dry place 50-80°)
