

Professional gloss photo paper

Not your standard solvent photo paper, QM-SGLP9 is a true, professional grade RC coated photo paper that produces exceptional results. This media is thicker and more substantial in weight than normal photo paper. Its high gloss finish makes it great for special occasion photo reproductions.

Benefits:

- True RC Photo Paper
- High Gloss Finish
- Heavy Paper Stock

Applications:

- Photo Reproduction
- Gallery and Artist Renditions
- Wedding Photography
- High-end Posters

This media is designed for digital printing applications using OEM printers with their accompanying OEM ink sets. Although designed for all printers using the aforementioned OEM matching ink sets, actual results may vary depending on printer model, age, print design, environmental conditions, and other factors. Exposure of a print to atmospheric pollutants, or to temperature, humidity, and / or lighting extremes can result in fading, color shifting, or other visual changes. The ideal conditions for printing and storage are a temperature of 70°F ±5°F and relative humidity of 50% RH ±3% RH. Our wide format media is guaranteed against manufacturing flaws and defects and is designed to resist printer jams when used properly. Storage: Up to one year if stored in proper conditions (cool, dry place 50-80°)
