QM-PERMATAC: Satin Hybrid Media w/ Permanent Adhesive

Vibrant colors and sharp line printing make PERMATAC stand out form the crowd. The most economical alternative to Tyvek, Teslin, and other tear strength products, that also works with multiple print platforms. This tree free and PVC free media truly redefines film with many various applications that require extreme durablility and/or die cutting. The permanent adhesive makes it great for long lasting graphics that stay put.

Benefits:

- Tear Resistant
- Water/Weather Resistant
- Light Weight & Easy to Die Cut
- Can be written on with pen, pencil, or sharpie

Applications:

- Security Labels
- Banners, Signs, & Posters
- Glass Bottle Labels
- Price Tags

Registered Latex Developer
